EDUCATION

Massachusetts Institute of Technology	Sep 2023 - Jun 2025
Master of Engineering in Operations Research; GPA: 4.0/4.0	
Relevant Coursework: Optimization, Machine Learning, Statistical Inference, Databases, Econometrics	
Boston University	Sep 2019 - May 2023
Bachelor of Science in Industrial Engineering, summa cum laude; GPA: 3.9/4.0	

EXPERIENCE

Meridian Logistics	Jun 2024 - Aug 2024
<i>Operations Research Intern</i>	Boston, MA
- Engineered a mixed-integer routing optimizer in Python and Gurobi across 1,400 daily shipments, cutting fuel cost 14% and saving \$2.1M annualized - Automated the nightly forecasting pipeline with Airflow and dbt, reducing analyst effort 31 hours per week and eliminating 4 recurring data-quality incidents - Negotiated scope with 3 regional directors and presented the rollout plan to the COO, securing approval for a 9-site pilot	
Harborline Health	Jan 2024 - May 2024
<i>Data Science Consultant</i>	Cambridge, MA
- Built a readmission-risk model in scikit-learn on 210,000 records, lifting AUC from 0.68 to 0.84 and flagging 1,900 high-risk patients per quarter - Coached 5 clinical staff through the dashboard rollout and authored the 24-page handover documentation still in use - Partnered with 3 nursing units and the IT service desk to resolve 40 escalated data requests, cutting average response time from 5 days to 8 hours	
Boston University Department of Statistics	Sep 2022 - May 2023
<i>Head Teaching Assistant</i>	Boston, MA
- Led a team of 7 teaching assistants and redesigned the grading rubric, cutting marking time per assignment from 85 to 30 minutes - Taught 4 weekly lab sections of 45 students and raised median exam scores 11 points year over year	

LEADERSHIP & ACTIVITIES

MIT Operations Research Society	Sep 2023 - Jun 2025
<i>President</i>	
- Founded a mentorship program pairing 60 undergraduates with 40 industry mentors across 2 cohorts - Orchestrated a 300-attendee conference and raised \$47,000 from 6 corporate sponsors, a 92% increase over the prior year - Planned the two-year strategic roadmap with 4 faculty advisors and coordinated logistics across 12 collaborating student societies	

SKILLS

Languages: Python, R, SQL, Julia | Tools: Gurobi, PyTorch, Airflow, dbt, Tableau, Docker, AWS
