EDUCATION

Carnegie Mellon University <i>M.S. in Data Science; GPA: 3.9/4.0</i> Relevant Coursework: Machine Learning, Statistical Inference, Optimization, Databases	Expected May 2027
University of British Columbia <i>B.Sc. in Statistics, First Class Honours; GPA: 3.8/4.0</i>	Sep 2019 - May 2023

EXPERIENCE

Northwind Analytics <i>Data Science Intern</i> - Engineered a churn-prediction pipeline in Python and SQL across 2.4M customer records, lifting AUC from 0.71 to 0.86. - Automated 14 weekly reporting workflows with Airflow, cutting analyst effort by 22 hours per week. - Presented model findings to 3 executive stakeholders, securing approval for a \$450K retention pilot.	May 2024 - Aug 2024 Toronto, ON
Vector Labs <i>Research Assistant</i> - Designed 6 controlled experiments evaluating transformer compression, reducing inference latency 38%. - Co-authored a paper accepted at a peer-reviewed workshop and mentored 2 junior researchers.	Sep 2023 - Apr 2024 Vancouver, BC

LEADERSHIP & ACTIVITIES

Data Science Society <i>President</i> - Led a team of 12 organizers and grew active membership from 80 to 310 within two semesters. - Negotiated 4 corporate sponsorships totaling \$18K to fund a 200-attendee analytics conference.	Sep 2022 - May 2023
Department of Statistics <i>Teaching Assistant</i> - Taught 3 weekly lab sections of 40 students and raised median assignment scores by 11 points. - Rebuilt the grading rubric in R, cutting marking time per assignment from 90 to 35 minutes.	Jan 2023 - Apr 2023 Vancouver, BC

SKILLS

Languages: Python, R, SQL, Scala | Tools: PyTorch, Spark, Airflow, dbt, Tableau, Docker, AWS
Certifications: AWS Certified Data Analytics | Interests: competitive rowing, open-source contribution
